

National Patient Portal for Iceland

<https://www.heilsuvera.is>

Ingi Steinar Ingason

Project manager – National EHR Projects

Directorate of Health

October 29th 2015

**Embætti
landlæknis**
Directorate of Health

- Single website where all Icelanders can access:
 - own patient record info
 - online services
- Starting with primary health care
 - Hospitals and private clinics to follow
- First installation in October 2014
- Ultimate goal is to give full online access to all patient record info

 - Hospital admission history
 - Appointment history
 - Prenatal care
 - Total access
 - Interactive patient education
 - Record your own:
 - Glucose level
 - Weight
 - Blood pressure
 - ...
- Same for own children up to 15 years old

VERA

Online Monitoring

- ~ 20% of adults have hypertension (WHO 2014)
- Treatment compliance a problem
- Patient is diagnosed with hypertension:
 - Doctor starts online monitoring
 - Patient registers measurements in VERA
 - Measurements sent automatically into EHR
 - Doctor/Nurse can monitor large groups:
 - Flagging of high values, no registration or drug noncompliance
 - Message sent to patient through VERA
